INVACARE® ETUDE™ HC BED

INVACARE®

Yes, you can.®

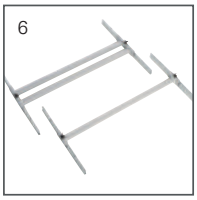
The ETUDE HC Bed features innovative Shear Management Technology (SMT) as a standard feature, reducing shear and friction and providing safety. The SMT feature is provided through the auto-regression of the head section while repositioning in ETUDE HC Bed through use of the eight function hand control.

Features and Options

Modern and Flexible
The ETUDE HC Bed delivers a modern, streamlined and discreet design perfectly complementing any interior. The ETUDE HC Bed can be configured with attractive wood side panels and a choice of safety rails to accommodate specific transfer, safety and support requirements. The ETUDE HC Bed provides a deck height ranging from 7.8" to 26.5". The simple to use eight function hand control enables the user or caregiver to lock out specific functions for increased safety.

Easy Handling & Storage
The ETUDE HC Bed recognizes that portability, storage and set-up are important features for users and caregivers alike. The simplistic design allows for simple assembly without tools and transport can be managed safely as each section of ETUDE HC Bed weighs less than 52 lbs. Smooth roll 3" locking casters enable the bed to be easily maneuvered.

Highest Safety levels
The ETUDE HC Bed conforms to the IEC bed standard IEC 60601-2-52. This equates to the highest degree of safety for both the client and the caregiver. The eight function pendant allows the caregiver to lock out any of the bed's functions for enhanced patient safety.



1. Built in Dual Height Brackets
2. Shear Management Technology
3. Transport and Storage Kit
4. Support Handle
5. Lifting Support Trapeze Kit
6. 4" and 8" Extension Kit
