ROHO® HIGH PROFILE® Sensor Ready™ Cushion

The HIGH PROFILE Single Compartment Cushion with Sensor Ready Technology is an adjustable, air-filled, cellular-designed cushion. The cushion provides a wheelchair support surface that utilizes DRY FLOATATION® Technology intended to conform to an individual's seated shape. The cushion provides skin and soft tissue protection in an environment to facilitate wound healing and prevention.

Sensor Ready Cushions are intended for use with Smart Check® by ROHO®, which is a cushion feedback system that is intended to assist an individual by saving an inflation range during cushion setup. During subsequent inflation level checks, Smart Check is intended to indicate whether adjustments are needed to remain in the saved range.

DIMENSIONS
Width: 11.5" to 26.75"
Height: 4.25"
Weight: Approx. 3.25 lbs.

MEDICARE CODES
Cushion Only:
E2622
E2623

WEIGHT LIMIT

ROHO® MID PROFILE™ Sensor Ready™ Cushion

The MID PROFILE Single Compartment Cushion with Sensor Ready Technology has a lower cell height than the HIGH PROFILE™ Cushion, providing an individual with skin and soft tissue protection.

Sensor Ready Cushions are intended for use with Smart Check® by ROHO®, which is a cushion feedback system that is intended to assist an individual by saving an inflation range during cushion setup. During subsequent inflation level checks, Smart Check is intended to indicate whether adjustments are needed to remain in the saved range.

DIMENSIONS
Width: 13.25" to 20"
Height: 3.25"
Weight: 3.0 lbs.
