

BOLERO LIFT BATH TROLLEY

Bolero® makes assisted bathing routines for dependent residents a one-to-one care process.

For the resident, being bathed by a single caregiver is less stressful and intrusive. *Bolero* provides a secure environment throughout the bathing cycle, allowing the resident to relax and enjoy the full benefits of bathing. After transfer from the bed, the resident remains safe on the lift bath trolley during transport and the bathing session itself.

A single caregiver can safely manage all stages of the bathing cycle. The efficient functions and features of *Bolero* ensure a safe, ergonomic working environment and gives the caregiver more time to attend to the resident. The *Bolero* can enhance the safety and comfort of bathing routines for dependent residents.

...with people in mind

KEY FEATURES

Easy Transfers

The resident is easily rolled onto the stretcher, which can be adjusted to the correct working height.

Bathing

Bolero integrates with several height-adjustable ArjoHuntleigh bathing systems.

Foldable Side Rail

The stretcher can be fitted with a foldable side rail to enhance resident safety and comfort.

Handles

Handles on the pillar make the lift bath trolley easy to maneuver and position.

Quick Change Battery

The quick change battery system ensures *Bolero* is always available for use.

Electronic Scale

Bolero can also be used to weigh residents using the optional foot-operated, highly accurate electronic scale.
