

orca & penguin™

The Penguin can be used in the Orca bath tub, but fits ordinary bath tubs as well. With its suction cups, the Penguin sits firmly on all smooth surfaces

Orca

A bath is not just something to get over with. That is why R82 has developed a bath tub that provides the carer with optimum working conditions.

The bath tub from R82 is mounted on a frame. The frame is height adjustable and can fit the height of almost any carer, making the bathing experience a pure pleasure.

Penguin

The Penguin makes bathing comfortable for the child. It provides support for head and trunk alongside the great freedom of movement for arms and legs so that the child can stay longer in the bath. With its adjustable abduction block it easily fits the individual child.

Orca - height adjustable frame

The height adjustable frame makes it easy to fit the tub to almost any carer

Orca - wheels with brake

Secures the Orca for stability

Smooth surface

The smooth and hygienic surface on both the Orca and Penguin is easy to keep clean

Penguin - suction cups

Secures the Penguin in the bath tub
