\* The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories a day is used for general nutrition advice. -- Not a significant source of saturated fat, trans fat, cholesterol, dietary fiber, vitamin D, calcium and iron.

### Instructions for Use:

- Mix one packet of Pedialyte Powder with 16 fl oz water only. Stir or shake to dissolve.
- Tastes best served cold.
- Begin with small frequent sips every 15 minutes, increasing serving size as tolerated. Continue to use for as long as symptoms are present.
- To maintain proper hydration, 2 to 4 servings (32-64 fl oz) of Pedialyte may be needed per day. Consult your doctor if vomiting, fever, or diarrhea continues beyond 24 hours or if consumption needs are greater than 2 L (64 fl oz) per day.

### Storage Instructions:

- Store unused reconstituted product in sealed container in refrigerator for up to 48 hours.
- Do not store powder packets at extreme temperatures.
