*The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories a day is used for general nutrition advice. -- Not a significant source of saturated fat, trans fat, cholesterol, dietary fiber, vitamin D, calcium and iron.

Preparation

Instructions for Use:

- For children 1 year and older and adults: Offer Pedialyte Freezer Pops as frequently as desired.
- To maintain proper hydration, 16-32 Freezer Pops (or a total of 32-64 fl oz of any Pedialyte product) may be needed per day. Consult your doctor if vomiting, fever, or diarrhea continues beyond 24 hours or if consumption needs are greater than 32 Freezer Pops (64 fl oz) per day.
- Freezer Pops can be consumed without freezing, but the flavors are best when frozen.
- Note: Like colored ices, Pedialyte Freezer Pops may temporarily color mouth.

To Eat Frozen

- Remove Pops from carton and freeze before separating.
- Tear or cut carefully between sleeves along perforations.
- With clean scissors, cut off top of sleeve.
- Push up Pop from bottom of sleeve.

To Drink

- Tear or cut carefully between sleeves along perforations.
- With clean scissors, cut off top of sleeve and pour liquid into cup or glass.

Storage Instructions

- Discard unused portion of opened product
- Do not reuse plastic sleeves.
- Store unopened pops in cool place; avoid excessive heat.
