Configura Advance

Fully adjustable comfort chair with integrated pressure care and postural support

Accora
The Configura Advance is a comfort chair suitable for multi-use care environments, with a high level of adjustment for size, pressure care and postural requirements.

- 10 degrees of forward tilt
- Legrest elevation and BodyMove technology with 37 degrees of tilt-in-space
- Dropdown armrest option – helps with transfers and sling access
- Width adjustment from 18” to 22”
- Depth adjustment from 18” to 22”
- Seat overlay with interchangeable pressure cushion
- Continuous seat overlay for thigh support
- Angle adjustable footplate
- Height adjustable footplate
- BodyMove ‘reduced shear’ backrest with 130 degree recline
- Width adjustment from 16” to 22”
- Depth adjustment from 16” to 22”
- Seat overlay with interchangeable pressure cushion
- Continuous seat overlay for thigh support
- Angle adjustable footplate
- Height adjustable footplate
- BodyMove ‘reduced shear’ backrest with 130 degree recline
Using unique BodyMove technology, the backrest and legrest of the Advance chair adjust in close alignment to the biomechanics of the human body. This reduces shear forces on the back and legs, improving comfort and posture.

- Optional postural backrest
- BodyMove™
- Reduced shear recline to help maximise pelvic stability and assist in preventing tissue damage
- Fully articulating legrest, giving superior leg elevation and support
- Optional profiled headrest
- All cushions height and depth adjustable
- Angle adjustable pillows
- Optional lateral supports
- ClickLock – easy-to-adjust bracket for flexible adjustment and positioning of backrest cushions
What is ‘Configura’?

The Configura chair range by Accora introduces a revolutionary way of providing seating saving time, effort and cost. Here’s how it works:

Benefits

User groups

The Configura Advance chair is appropriate for:

- Non-ambulant users
- Users with limited knee extension
- Users who need to be transported from room to room
- Moderate postural requirements
- Users up to 352 lbs
- Complex postural requirements, e.g. fixtures and contractures
- Users with stiffness or fixtures at the hips
- Stroke and neurological conditions

Configure

Select the ideal set-up for the user and adjust the height, width and depth of the Advance chair. Further options for pressure care and posture management can also be selected.

- Size
- Pressure
- Posture

Reissue

The Advance chair is easily and cost-effectively reissued, because all contact areas can be removed for cleaning or replacement. The chair can then be re-configured for the next user.

Deliver

The chair is delivered, configured exactly to the specification required. Adjustments can be made with the user on-site to ensure maximum comfort and effectiveness.

Adjust

If the user’s needs change over time, the Advance chair can be easily adjusted. For example, you can upgrade the pressure cushion or introduce more lateral support. This can remove the need to issue a new chair.
