

TIDALWAVE POOL BIKE

AQUATIC EXERCISE

ITEM # F-TWPB

ABOUT

The Tidalwave's innovative design provides a low-impact and invigorating workout for people of all fitness levels. Whether you're recovering from an injury or looking for a high intensity workout with more resistance, aquatic cycling is the future of inclusive wellness. Found in physical therapy centers, gyms and home pools across the globe, these unique underwater bikes feature a flywheel design that provides a more natural and fluid ride.

Multiple resistance levels, an adjustable seat, and handlebars allow users of all types to exercise at their own pace. In addition to its folding design for quick and easy storage, the optional semi-recumbent seat provides a backrest and seat handles that add support and security; an excellent rehabilitation tool whether you're in an aquatic spin class or your own back yard.

APPLICATIONS

The TidalWave is designed for both residential and commercial use. It's versatility allows it to be used in rigorous spin class settings, as well as rehabilitation settings. Check out our website for more information!

STANDARD RIDE

Rider is sitting on seat with hands gripping the handlebars.

RELAXED RIDE

Rider is sitting on seat with hands dangling in the water.

STANDING RIDE

Rider is off the seat, standing and pedaling, with hands gripping the handlebars.

CHEST DIP

Rider is behind the bike holding the seat, lifts legs up and slowly lowers themselves until their chest hits the seat and then pushes themselves back up.

ABDOMINAL CRUNCH

Rider is on seat with feet hooked under the handlebars. Lean back until back of head hits the water and then return to an upright position, using only your core.
