

CORFIT SYSTEM® LS BACK SUPPORT

- Helps relieve lower back pain and discomfort
- Proportional sizing system for a proper fit
- Easy closure assists provide leverage with minimal effort
- Helps stabilize the spine, and promote proper posture
- Flexible stays help increase support and stability
- Adjustable elastic pulls for extra compression
- Contours to the waist and hips for comfort

Available From:

HELPS RELIEVE LOWER BACK PAIN

The CorFit System® LS Back Support provides compression to help stabilize the spine and ease lower back pain by creating intra-abdominal pressure. It also helps improve posture and serves as a reminder to use proper lifting techniques by limiting the motion of muscles and ligaments.

PATENTED, PROPORTIONAL SIZING SYSTEM

Our patented, proportional sizing system provides a proper fit in height and length to accommodate various body sizes. Flexible internal stays provide support and stability as well as help prevent the sides from rolling. Easy closure assists provide additional leverage with minimal effort for extra compression and a secure fit; ideal for users with arthritis or weakened muscles. The soft elastic CorEdge® finish on top and bottom edges offers added comfort and flexibility.

COMFORT, COMPRESSION, FLEXIBILITY, & STABILITY

Soft material wicks away moisture, keeping the body cool and comfortable. The anatomical form contours to the natural curves of the waist and hips for comfort. Dual elastic side pulls provide firm compression.

The CorFit system properly fits everyone while providing comfort, compression, flexibility, and stability!

SPECIFICATIONS
