Helps reduce headaches and neck pain for better sleep

- Oval shaped center in water chamber gently cradles head and neck
- Easily control support level with premarked water chamber
- Customize level of support by adding or removing water
- Latex free
- Recessed, fill port with screw-on cap prevents leakage

Available From:

RESPONDS *Instantly* TO CHANGES IN SLEEPING POSITION

Get better sleep each night by gently cradling your head and neck with the Tri-Core® Water Pillow's adjustable water chamber that is surrounded by soft, polyester fiber fill. This pillow is ideal for side sleepers, back sleepers, and people who suffer from chronic headaches and neck pain.

When filled, the water pouch instantly responds and adjusts to changes in sleeping position and head movement, helping improve sleep quality.

The water chamber is removable to make filling it convenient and easy. The recessed, threaded fill port with screw-on cap prevents leakage so you can rest assured, knowing your pillow will be dry in the morning. For convenient laundering, simply remove the water pouch and toss the pillow into washing machine. Easy-to-follow instructions can be found on the pillow's tag.

This unique Tri-Core water chamber has an oval shaped center which displaces the water to cradle the head and support the neck in a more natural position.

Simply add water to reach desired level of support as noted on the premarked water chamber: soft, medium, firm, xfirm. Add or remove water to achieve desired support and comfort level. Use this pillow with or without water chamber for comfortable sleep.

SPECIFICATIONS

Product Selection: Tri-Core® Water Pillow FIB-297, White

Product Weight: 2 lbs

Dimensions: 26" x 15" x 6"

Materials: Polyester, cotton, polypropylene, polyester fill
Screw cap: PE-LD | Fill Port: PVC
