

The FreeLoader Child Carrier

The FreeLoader is the first child carrier built specifically for toddlers & small children, allowing families to enjoy adventures together. The light, unique design & 5 point safety harness allow parents to rest their arms, children to rest their legs, and for families to safely go further than they have ever gone together - whether that's a short trip to the zoo or a long trek to the top of Mount Kilimanjaro (yes...it's been there, too).

- More storage capacity with the pockets
- Soft pillow for the child's head with the picture of the top of the bag.
- New and Improved waist belt and shoulder straps.

Features

- ✓ Stirrups for foot support on every carrier
- ✓ Wide ergonomic shoulder & waist straps for comfort
