

The alternative to being bedridden

Marked

Tie down hooks (4 rings) for the front facing transport of the user in moving vehicles (private cars, conformed buses etc.)
AS STANDARD

Attention!
Read carefully the user and maintenance manual

FEATURES

- **FRAME** made of chromed steel, painted with non-toxic epoxy powder paint. Narrow base to facilitate entering elevators.
- **The seat and backrest are covered with visco-elastic fire-proof material. It is resistant, breathable and anti-slip. It is made of a special and exclusive ORMESA formula:**
 - 1) It adapts to the user's body shapes and it prevents its sliding, with the result of an **EXCELLENT COMFORT and KEEPING POSTURE**, even when changing the backrest recline and tilt (it adapts to the user's body shapes maintaining its support function).
 - 2) Easily washable to keep the **HYGIENE** of the user; It lets **AIR PASS** keeping the **OPTIMAL MICROCLIMATE** that **HELPS PREVENTING BED SORES**.
 - 3) Durable and fireproof, **GUARANTEE OF DURABILITY and SAFETY**.
 - 4) Ergonomic, breathable, non-toxic, fireproof **UPHOLSTERY**; It does not interfere with the benefits of the visco-elastic cover. The upholstery is fixed with buttons, easy to remove for machine washing.
- Ergonomic **BACKREST**, it holds the shapes of the user. **The special structure of the backrest gives a proper alignment to the trunk and it doesn't generate any pressure on the spine.** Adjustable in tilt by levers with safety pin. The pin allows blocking the levers to maintain the proper adjustment for the user, height adjustable, folding for transportation.
- Low **SEAT** and slightly inclined. Adjustable in depth on four positions.
- Wide and wrap **HEADREST**, padded, multi adjustable (in height, tilt, depth, lateral traslation); thus assuring the **proper alignment between head and trunk**, without interfering with the user's view. Anti-bacterial and Hygienic.
- **ARMRESTS**, padded, easily and stably adjustable in height thanks to the lever.
- **PUSH HANDLE** adjustable in tilt/ height, it helps the care.
- **CONTINUOUS AND WITHOUT EFFORT ADJUSTMENTS**: tilting, backrest recline and legrest tilt are operated by independent gas springs.
- **SIDES** with scissor opening. Thanks to the special joint, the armrests are positioned behind the backrest, eliminating completely all obstacles to the transfer.
- **LEG RESTS**: ergonomic, removable, turnable and adjustable in tilt without effort, activated with gas springs.
- **CALFRESTS** adjustable in depth and free tilt to accommodate the movements of the leg.
- **FOOT RESTS**, adjustable in flexion-extension and height.
- **8" front solid wheels and 22" rear wheels with brake.** Anti-tip device and pedal to climb steps.
