Total weight (g): **0**

The weight changes based on the choices made below.

**U3-light** has a rigid rear axle. To find a balance that suits you, there are two versions, **U3 light** or **U3 light L**. L is more easy balanced and easier to drive on the rear wheels. You can tune the balance by placing the backrest in three different position. U3 Light has a seat height of 47 cm in front and 43 cm at the rear without cushion.  
**Max userweight is 100 kg for seatwidth 33-45.**

Save the guide to the "desktop" and open it with **Adobe Reader**, for best function Design your wheelchair by clicking in the circles in this guide. **Blue, underlined text is clickable to show info** or image. **BB** = seatwidth, **HH**= backrest height
