

QUICKIE®

EXPERIENCE IT ALL

The QUICKIE® QM-7 with SEDEO Ergo Seating and SpiderTrac™ 2.0 suspension redefines powered wheelchair technology, inside and out. Travel farther, take on new challenges, and be your independent self with its superior drive performance, intelligent design, advanced mechanics, and industry-leading electronics options. Experience it ALL with the QUICKIE QM-7 with SEDEO Ergo Seating.

LIVE WITH OUT LIMITS

EXPERIENCE EVERY DESTINATION

QM-7 base with new options and upgrades for superior performance.

EXPERIENCE FIT THAT IS ALL ABOUT YOU

The new SEDEO Ergo seating system is designed to fit you like a glove.

EXPERIENCE COMFORT IN ALL POSITIONS

Power seating with advanced mechanics keep you comfortable and supported when tilted, reclined, elevated, and in every posture in between.

EXPERIENCE INDEPENDENCE LIKE NEVER BEFORE

Memory seating, C-Me™ elevate, PG Drives electronics, built-in Infrared controls, and more allow you to access and experience every environment.

EXPERIENCE
EVERY
DESTINATION

Turn on a Dime

Mid-wheel-drive base with 20" turning radius offers impressive indoor maneuverability.

Travel with Confidence

Ultra-reliable 6.0 mph Linix 4-pole motors are the most dependable in the industry.

Conquer Terrain

The QM-7's SpiderTrac™ suspension revolutionized mid-wheel-drive performance with optimized front and rear wheel articulation for smooth transitions over various terrains.

Weather the Elements

The QM-7 chassis' steel components are electro-plated and powder coated, keeping your chair resistant to corrosion even in the harshest conditions.

The new SpiderTrac™ 2.0 Suspension's performance springs keep all 6 wheels to the ground as you take on various terrains and adjust your seating positions.

BE SEEN

The QM-7 with SEDEO Ergo's lights and indicators allow you to see – and be seen – when driving at night.

POSITIONS

BIOMETRIC REPOSITIONING

Moving out of a reclined position often requires use of the tilt function or assistance from a caregiver to regain a proper seated posture. The SEDEO Ergo with patented Biometric Repositioning is more effective than any other seating system when it comes to independent repositioning throughout the day.

When moving from a reclined position to a seated position, the SEDEO Ergo will first pass through an intermediary tilted position that uses gravity to realign your pelvis in one smooth, effortless motion.

Power Recline with Anti-shear

Transitioning in and out of recline doesn't need to be uncomfortable. The SEDEO Ergo's power recline is supported by 7" of anti-shear to better maintain the positioning of the headrest, and even chin control, during recline.

Power Elevating/Articulating Centermount Legrest

Proper support of the feet can help reduce pressure on other areas of the body. With 7.5" of articulation, the Quickie Power Centermount Legrest ensures your feet are supported by the footplate as they are elevated and lowered.

ADVANCED MECHANICS FOR HEAD-TO-TOE SUPPORT

Tilt, recline, and elevating legrests are known to help realign your posture, manage edema, relieve pressure, increase seating comfort, reduce fatigue, and improve your overall function.

EXPERIENCE
INDEPENDENCE
LIKE NEVER
BEFORE

C-Me™ 12" Elevate with 3mph Drive Speed

C-Me's 12 inch elevate puts everything at home and at work within your reach. Now, exclusively with the QM-7 with SEDEO Ergo, you can travel at YOUR pace when elevated.

MEMORY SEATING WITH SEDEO ERGO

Get the most out of the SEDEO Ergo's power tilt, recline, elevating legrests, and elevate with Memory Seating. Save up to 6 programmable positions, and move to those positions with the push of a button.

The SEDEO Ergo's Memory Seating comes pre-programmed in six suggested positions. Utilize the preset positions, or program six positions that are completely unique to you.

Seated
Your "home" position.

PG Drives Electronics

Tried and true PG Drives electronics are reliable and easy to use. The new CJSM2 joystick's 4 quick-access buttons control different functions depending on the MODE you are in. For example, in drive mode, control your lights or indicators; in seating mode, control elevate or recline.

Advanced Ctrl+5

Conveniently access 5 seating functions with the Ctrl+5 – a perfect combination with Memory Seating. Smart back lighting indicates the function in use. A convenient USB port allows you to charge mobile devices.

Built-In Infrared Controls

Take control of your environment right from your QM-7. Control home appliances such as your TV with built-in IR.

Switch-It® Alternative Drive Controls

If driving your QM-7 with a traditional joystick is not the best option for you, Switch-It® alternative drive controls allow you to fully experience your chair's driving capabilities and benefits.

Choose from head arrays, chin controls, mini joysticks, switch boxes, and more.

Pressure Relief

A reclined, tilted, and legs elevated position helps reduce and relieve pressure from beneath the pelvis.

Repose

A fully reclined, legs elevated position allows you to rest.

Transfer

A slight elevate with legs extended to the floor assists with stand-pivot transfers.

OTHER BENEFITS

Van Entry

Never worry about getting your seating position just right for driving into and out of your van. Program it!

Cooking

Use your C-Me™ Elevate and Memory Seating to prepare the perfect meal.

Outdoor Driving

A slightly "bucketed," or tilted, position is a safe and secure position for driving outdoors.

Manage Edema

Manage swelling of the lower extremities with a combination of tilt and elevated legrests.

CHOOSE YOUR ACCENT COLOR

Available in five flashy trim colors or stealthy all Black.
