

Rifton Anchor family

Anchor Family

Imagine work and play activities made a whole lot easier for clients by stabilizing one of their arms.

Anchors attach to any horizontal surface when your students or clients need a little extra stabilization.

Great in the classroom, at home or in a sheltered workshop, our Anchors are portable and sturdy, but not too heavy. Suction mounted, they fasten instantly to any smooth, clean, horizontal surface – even wheelchair trays or stander trays.

Work, play and practice of self-supporting skills are so much easier with an Anchor. Best of all, regular use of an Anchor (or a pair) can help increase head and upper trunk strength and control.

“Whether stabilizing a child’s posture while he feeds himself or letting him type at the computer, we see huge improvements with the use of Rifton’s Anchors. I especially like the grab bar. I’ve used it on the floor for self-assisted rolling and on tables for repositioning. The versatility of the system has made the Anchor family indispensable at our facility.”

Bill Lynch, DPT
Supervisor, Physical Therapy Department
Orange-Ulster BOCES Goshen, NY

DESIGNED FOR USE WITH THE
MOVE[®]
PROGRAM

Anchor family features

1. Lock the suction cup lever to attach the Anchor; lift the lever to release it. No slipping or shifting with the industrial-strength, 4 $\frac{3}{8}$ " diameter suction cup.
2. Impervious to hard, constant use, Anchors are made of strong materials and built to last.
3. The comfortable straps on the wrist, arm and elbow Anchors give extra security for the user’s forearm.
4. Covered with easy-to-clean, healthcare-grade vinyl, the cushioned pad provides comfortable positioning with the wrist, arm and elbow Anchors.
5. The handhold of the arm Anchor extends in length and adjusts for forearm rotation.

The hand Anchor fastens simply and securely.
The days of drilling through wheelchair trays are over!

With the wrist Anchor, Charlotte can concentrate for participation with an adaptive toy.

Rhoda holds onto the convenient grab bar for additional support.
