

# SB1 SHOWERBUDDY

## For transfer to a shower with tray step

The ShowerBuddy SB1 shower transfer system will turn your existing bathroom into an accessible bathroom allowing you to enjoy showering again without the excessive cost, delays and stress of a full bathroom remodel.

If your shower has a step or upstand preventing roll-in access, our ShowerBuddy SB1 will easily slide you, in a seated position, across the step and into the shower. Once transferred into the shower the bridge and wheeled base can be disconnected and rolled away, allowing the shower door to close for a more enjoyable shower experience. This chair can be rotated when inside the shower allowing you to face the water outlet or for an assistant to help with cleaning.

### Product Features:

- Weight capacity - 250kg
- Rolls over most standard toilets
- Low maintenance
- Arms - removable / lockable / flip-back
- Height adjustable
- Safety mechanisms
- No rust aluminum frame (Grade 6061 T6)
