

# brookfield

The Brookfield chair comes complete with moulded back, contoured seat, 4 point pelvic harness, contoured chest harness, back extension and height adjustable armrest as standard.

## Increased stability

The Brookfield is a robust chair for children from an early age to young adults who require moderate levels of postural support when seated.

The Brookfield has a unique moulded back as standard to promote central alignment while your child is seated.

## Greater adjustability

The Brookfield offers seat height and depth adjustability. As an additional feature, the back can also be adjusted in height. This allows even greater flexibility and enables the chair to grow with your child.

## Perfect for customization

Each child is unique. The Brookfield has been carefully designed to provide your child with a high level of customization; this means that the needs of your child are brought to the forefront. By using the chair and the accessories together we can offer a highly tailored solution.

## Brookfield technical data

all dimensions in inches unless otherwise stated

Item #	Size*	Seat to floor height**	Width	Seat depth	Back height	Max user weight (lbs)	Product weight (lbs)
