Progressive toileting

Our Combi toileting chair is a great starter chair. Its design enables it to be used as a supportive chair whilst at the same time providing numerous features to assist your child with the everyday toileting needs.

Providing solutions

The Combi toileting chair's design also incorporates a potty for younger children. This can easily be removed to provide a commode seat for children who have progressed their toilet training.

Adjustability

Good levels of adjustability are offered with the Combi toileting chair so that a wide range of needs can be met. Seat height and depth can be adjusted to suit the needs of your child.

Combi technical data

all dimensions in mm unless otherwise stated
