

ThevoTherapy - The therapy chair with mobility seat.

Thevo - The mobility seat for children: Stability AND movement at the same time

The mobility seat now offers optimum support to the children and at the same time the possibility for small movements of the trunk. This finally creates the best possible conditions for the children to carry out well directed activities with their arms and hands.

ThevoTherapy

- ✓ Individual adjustments by means of the flexible elements in the back.
- ✓ Firm seat as basis for an optimum seating posture.
- ✓ Height adjustable for an optimum use in everyday life.
- ✓ Growing with the child and easily adjustable to meet the individual needs.

Therapy-frame

Comfortable indoor base, easy adjustment of height and seat tilt-in-space by gas spring (foot engaged). 4 swivelling castors, 2 of them lockable (rear).

Headrest

Adjustable in angle and height. The lateral neck support is individually adjustable.

Suspension unit

Adapts to the body contours and offers movement possibilities to the child.

Arm rests

Ergonomically-shaped arm rest, adjustable in width, height, and angle.

Gas spring

Back angle easily adjustable by gas spring.

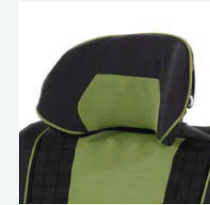

Wattle interlaced yarns

Easy assembly of the accessories. No more need for slitting the fabric. Optimised for the re-use.

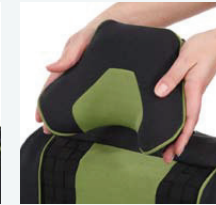

Anatomically shaped seat upholstery

Seat bone tuberosity padding with visco-elastic foam, low profile pommel.

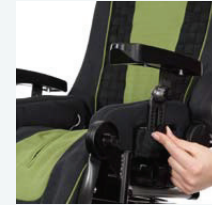

Accessories (selection, please visit our website to see the whole range)

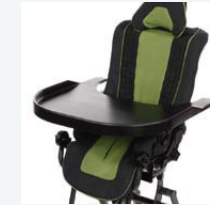

Headrest, shell: provides lots of lateral support, individually adaptable
