------------------------------------	-------	------	---------	-------

This is a Universal Restraint System for disabled children. It is approved in accordance with Federal Motor Vehicle Safety Standard 213 for general use in vehicles and it will fit most but not all cars. A correct fit is likely if the vehicle manufacturer has declared in the vehicle handbook that the vehicle is capable of accepting a Universal Restraint System for this age group. Only suitable for use in **vehicles with 3-point** (lap & shoulder) seat belts. This is a seat for children weighing between 30 – 110 lbs., and whose height is between 34 and 57 inches in **Booster Mode**. Suitable only for **forward-facing** installation. THIS booster seat is NOT CERTIFIED for use in an aircraft.

Defender Reha **AND** all accessories exceed US FMVSS 213 standards
